KS3 Charity Read-On

Pictured speaking to our Key Stage Three students is Mrs Rebecca Oates of the Children's Cancer Fund. This is a charity which offers support to local children affected by cancer and their families. The students learned all about the practical, financial and emotional help the charity offers, including therapeutic breaks in the Narnia cottage in Newcastle Co.Down. Our students have decided to support the work of this charity through our annual Read-On. By reading as many books as possible during the month of March, our students will help ensure that young people with cancer in N.Ireland, can be supported at home or in hospital by a team of experts. Key Stage Three students will be encouraged to pick up a book this Lent to support this worthwhile charity. The fundraising will also contribute funds to Trocaire and our Edmund Rice partner schools in Zambia. Sponsorship cards will be available in form class in the coming week and reading will begin on Thursday 2nd March, which is World Book Day.
