Awarding Achievement

Congratulations to the Year 8 pupils who received recognition for their efforts and achievements since they joined us at the beginning of September. We were unable to hold a full year group assembly due current restrictions therefore a special assembly was delivered to each class in their bubble. All positive points were collated and that determined the students who obtained “Excellent Achievement” in each class. Some students were absent on the day of presentation but all recipients are listed below. Next month’s assembly will be for those pupils who have not received any negative points.

Well done to all successful candidates and good luck to all striving for next month’s certificates.
