Young Enterprise Workshop

As part of National Careers Week our Year 10 pupils participated in a Project Business Workshop delivered by Young Enterprise Northern Ireland. The pupils worked in teams, creating their own fictional jewellery company, took on different roles and made decisions around target market, customer experience, branding while addressing typical problems faced by most businesses. In addition, they participated in an interactive challenge to make bead bracelets and compete to become the most profitable company. Well done to all the boys and the winning companies.
